

OUR GREEN FAMILY

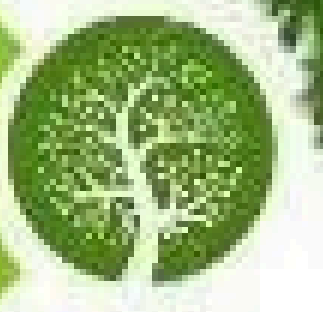

PBL PROJECT
BY STD 1

Trees give us wood

Trees gives us medicine

Trees give us rubber

They give us oxygen

They give us food

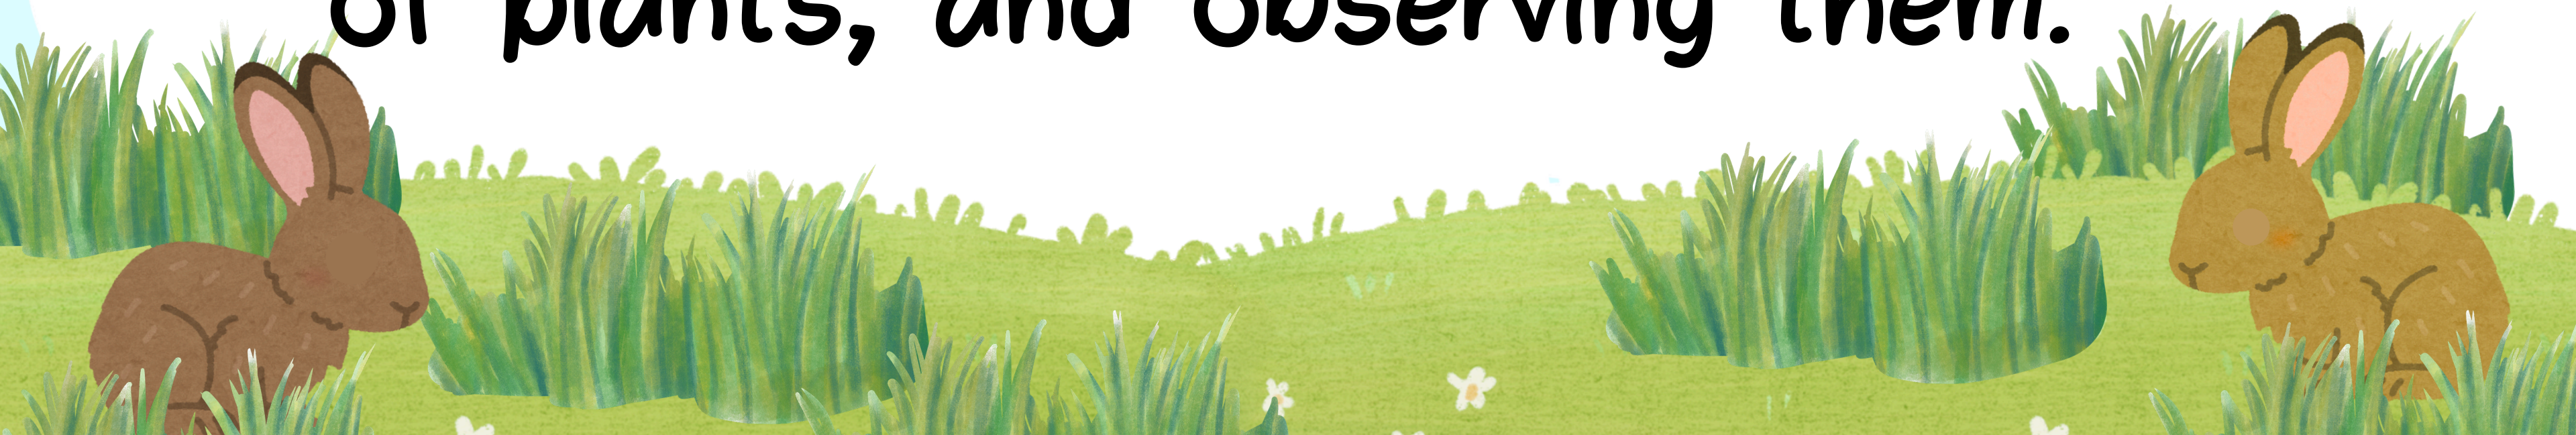

They give us shelter

welcome

WHAT IS PBL?

- Project-based learning is learning by doing fun activities.
- Activities like working together, asking questions, drawing pictures of plants, and observing them.

OBJECTIVES OF THE PROJECT

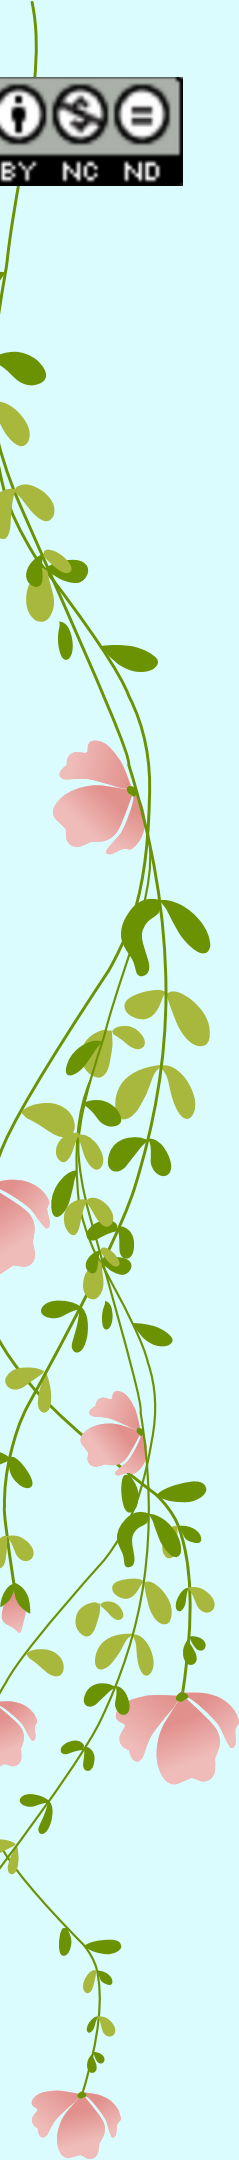

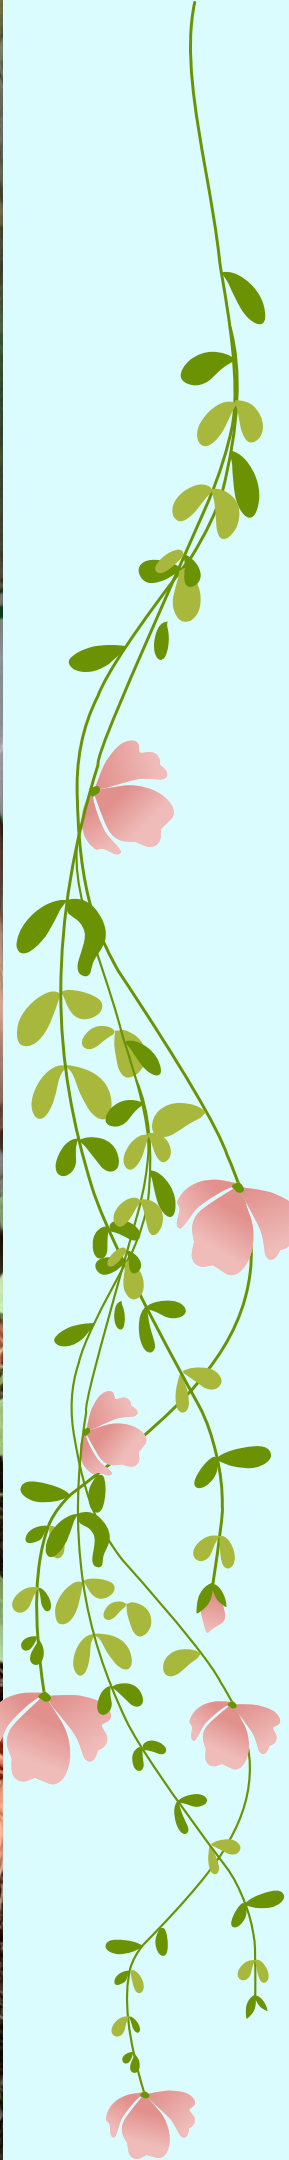

- To learn how seeds grow into plants.
- To learn how to sow seeds properly.
- To understand what plants need to grow.
- To love and care for plants.

OVERVIEW OF THE PROJECT

- How to sow different types of vegetable seeds step by step.
- How to water plants carefully.
- How plants grow day by day.

LAUNCH OF OUR PROJECT

- Teachers asked questions based on plants, e.g. Where do vegetables come from?
- Sowing of different types of seeds with the help of a gardener.

ENGLISH

*We learned new words and
making small sentences*

1. trees

1. medicine

2. shrubs

8. food

3. herbs

9. wood

4. timbers

10. clothes

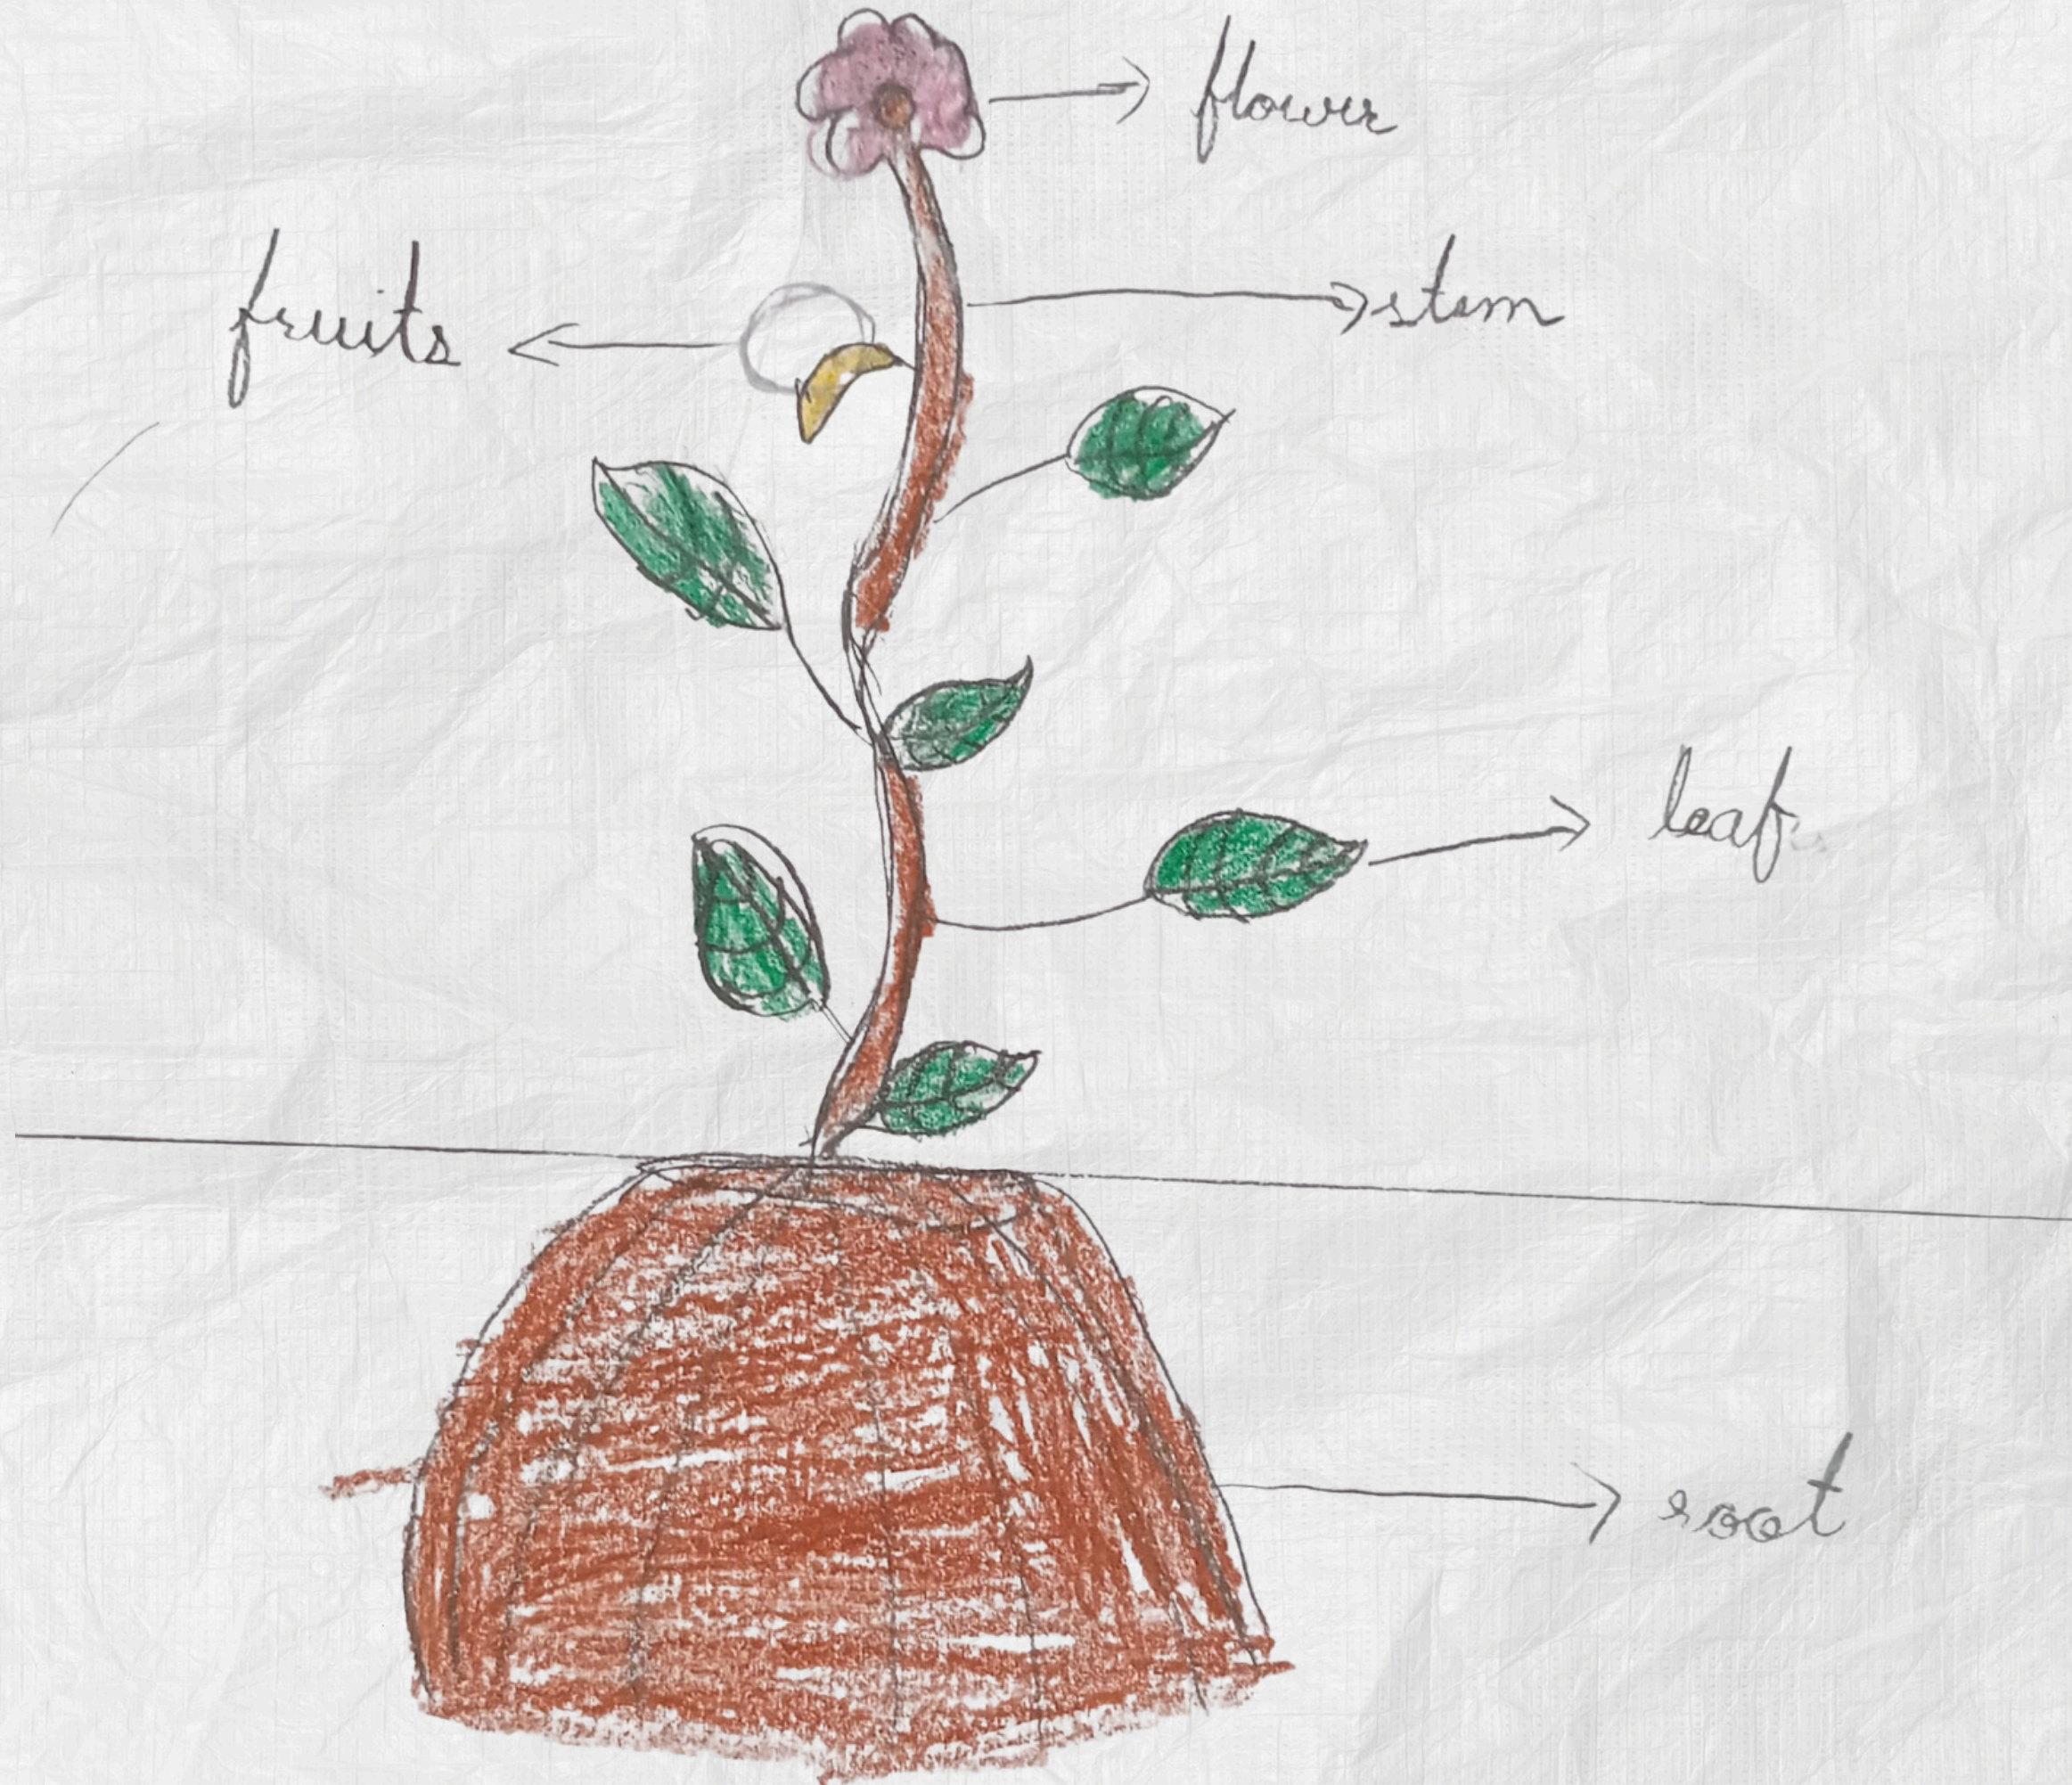

5. creepers

6. stem

EVS

Plants are living things.

Plants gives us food and oxygen

MATHEMATICS

Measurements

HINDI

पौधे हरे रंग के होते हैं इन्हें बढ़ने के लिए
हवा , पानी सूरज की रौशनी चाहिए

MARATHI

झाडाविषयी शिकलो. झाडे सावली, फुले
आणि फळे देतात.

ART

Drew pictures of different vegetables and plants and coloured them.

DRAWING AND COLOURING

EXPERT TALK

- We had a talk with gardner uncle.
- He observed our plants and explained how much they had grown.
- He guided for the plants which were not grown.

GLIMPSES OF INTERACTIVE SESSION

GLIMPSES OF INTERACTIVE SESSION
